State Police Vehicle Check This Week

Trooper Russell Scholtens of the Michigan State Police has advised the Avalanche that members of the force would be checking automobiles in the Grayling area starting this week. In checks which the state police have been conducting for a while, it has been discovered that many auto drivers are unaware of certain required equipment, for lack of which they may be ticketed. All cars manufactured since January, 1956, there must be windshield washers; on all vehicles manufactured since January, 1955 there must be turn signals; on all commercial vehicles over 14-ton there must be a right-hand mirror; on all private passenger cars manufactured since January, 1955 there must be seat belts; and all vehicles must have an auxiliary or "emergency" brake. Some of this equipment is not supplied by dealers, it must be separately supplied by the vehicle owner.

The greatest single defect the police check has turned up is incorrect aiming of headlights. Some cars have had their lights adjusted without use of instruments, simply by lining them up against a wall marker, and have been ticketed for incorrect aim on a second check. State Police have been issuing tickets for some of these deficiencies where it is evident owners have been aware of them for some time.

In addition to the above requirements, the police are checking for general safe conditions of all vehicles, and that all drivers carry with them a valid driver's license, registration certificate and proof of insurance.

FIRE DEPARTMENT ASKS CO-OPERATION

Grayling Fire Department Chief Kip Papendick asks the citizens of Grayling and surrounding area to help control the hazard of fire this spring by following safety rules of burning:

Do not burn grass, leaves, etc. till after 5 p. m. when the humidity rises.

Do not burn when the wind is up.

Have protection at hand such as a shovel or garden hose.

Do not leave the fire at any time.

The major cause of spring grass fires is still the burning barrel or faulty incinerator. To lower danger of fire treat the barrel or incinerator as an open fire. Do not leave it.

For permits to burn within the city, phone 348-3801. Outside the city, call the Conservation Department 348-4081. Burning permits must be obtained.

The department will again this year burn grass in large fields and lots. Those wishing this done may contact any fireman and have their names placed on the list.

Fire Department Called To Two Saturday Fires

The Grayling Fire Department was called out at 6:20 a. m. Saturday morning to extinguish flames in a car on US-27 between Grayling and Roscommon near Fletcher Road. The fire was apparently caused by an overheated brake drum on the left rear wheel according to State Police also at the scene. The interior of the car, driven by Robert Raymo of East Jordan, was a total loss. Riding with Raymo were his wife and an invalid aunt. A quantity of clothing belonging to the aunt was destroyed.

At 2:25 p. m. Saturday afternoon the department was called to the Everett Williams home on AuSable Trails where a permit brush fire had gotten out of control and spread to the surrounding grass. No property damage was reported. Members of Boy Scout Troop 77 which was passing by also gave assistance in putting out the fire.

Rev. Canon Allan L. Ramsay

REQUIRE PERMITS FOR SPRING BURNING

It is that time of year when people will be cleaning their yards of leaves and dead grass left from last fall. Many will want to burn this debris, others will haul it to the dump. If you are going to burn we ask that you use extra care (a large percentage of spring fires are caused by debris burning) and do the burning at a time when conditions are most favorable. Don't burn if the wind is blowing. If it should start up while you are burning, put the fire out and wait till the wind has gone down. Try to do your burning in the evening after the wind has gone down, and remember, the fire should not be left until it is dead out.

Burning permits are required by law any time the ground is not covered. If you live outside the city or village limits, permits can be obtained by telephone or in person at the Conservation Equipment Station, 1/2 mile north on Old 27, telephone number 348-4081, or 348-3191 after 5 p. m.

If you live in Grayling permits can be obtained by telephone at the city office, phone 348-2131. If you live in Frederic phone Allen Leng, 348-8366 for a burning permit.

Once again, A. B. C. — always be careful with fire.

Set Two Months Period For Clean, Paint and Fix Up

The Annual Clean Up, Paint Up, Fix Up campaign for Grayling has been slated to get underway on Saturday, April 15th and this year will continue for a two month period to June 15th. Lora Gould, director of the event announced today.

The big opening event for the campaign will be a parade which will start at 10:00 a. m. on Saturday, April 15th, forming behind the Grayling High School and proceed down Ogemaw street to Cedar where the line of march will turn left down Cedar Street to Michigan avenue. There the parade will go west to the hotel, reverse itself and return four blocks to the corner Chestnut street where it will disband.

Mrs. Gould said that if rain or inclement weather was to halt the parade on Saturday, April 15th, it would be re-scheduled for Saturday April 22nd.

The Grayling High Band will lead the parade with local business dis-

playing clean up and remodeling and various other floats and units will make up the parade. Mrs. Gould said anyone is cordially invited to join in. They should be at the High School by 9:30 a. m. The best costume depicting the campaign will win a \$5.00 cash prize.

That day and for the remainder of the campaign, business people in the downtown area are asked by the Clean Up committee to place a broom, mop or rake in their flag pole holders in front of their places to remind citizens of the clean up effort. These items should be taken in each night and replaced the next morning, Mrs. Gould said. She also asked that promptly at 10 a. m. the morning of the parade, business people should be out front washing the outside of their windows as the parade moves by.

In that Grayling has won a distinguished award in the National Clean Up Campaign for both 1965 and 1966, efforts to again place nationally are being stepped up this year. The High School art classes will participate by erecting four displays on the four corners of Michigan and Cedar streets. They will be judged on originality and their theme for three prizes of \$15.00, \$10.00 and \$5.00. Children are asked to please refrain from molesting the displays. Pictures will be taken of all four to be placed in the Grayling scrap book which is entered in the national contest.

The City of Grayling will take part in the campaign by again offering free pick up service. The city has set aside three separate pick up times. They will be on April 24th and 25th, again on May 8th and 9th and lastly on May 22nd and 23rd. All rubbish and debris placed at the curb will be taken away. The city asks that leaves not be piled at the curb but placed in containers to be taken away.

Five local judges have been named to keep watch of clean up, paint up, fix up efforts during the campaign. The city will give recognition for those making the most outstanding efforts.

If you plan to paint outside, remodel or tear down an old shed you are asked to call the Grayling Housing Commission (dial 448-9311) in order that a before-and-after photo can be taken to be included in Grayling's scrapbook. The City of Grayling firemen are also ready to help those who may wish to burn down old structures or buildings. The flower planting project along I-75 business loop through Grayling is also planned again this year probably taking place towards the end of May. Help is needed in the planting and each club or church group in Grayling is urged to take over a small plot to plant. Weeding of the planting this summer will be taken care of as last year through the Neighborhood Youth Corps.

If any workers on last year's campaign have Clean Up material left from last year, they are requested to leave the same at the Housing Commission office in the City Hall or at the Avalanche office.

MAGAZINE FEATURES BEAR HUNTING TRIP

COVINA, CALIF. — The hunting trip which Bear Archery Company of Grayling recently sponsored to Alaska's wilds for winners of a company sales contest is featured in the May-June issue of "Bow & Arrow", the nation's largest circulation archery publication.

The article was written by Doug Walker, western regional representative for Bear, and details his trials in hunting down a record caribou, killing it with an arrow from his Bear-produced hunting bow.

At one point in the hunt, after the caribou was wounded, he found that he was not the only one stalking his quarry. Two grizzly bears also were drawn after the wounded animal and were, in reality, stalking the hunter!

Fred Bear, Grayling resident and president of the archery firm, acted as host for the northland hunt in which contest winners from California, Michigan, Kentucky and Pennsylvania took part.

The issue in which the contest is featured is now on newsstand sale, and according to the publishers, should spotlight the archery equipment impact upon the Grayling area.

Postmaster General Urges Sweeping Change

Postmaster General Lawrence F. O'Brien proposed April 3rd that the Post Office Department be removed from the President's Cabinet and be converted into a Nonprofit Government Corporation.

"I know my proposal is far reaching," the Postmaster General said. "In fact, it has to be the most extensive proposal ever made in the history of the American Postal Service. But, I am firmly convinced, this is the only way to achieve the superlative Postal Service President Johnson has mandated, Postal Service worthy of the American standard."

Mr. O'Brien spelled out his proposal in a major policy address at a luncheon meeting of the Magazine Publishers Association and the American Society of Magazine Editors at the Shoreham Hotel in Washington, D. C.

"I can report to you that I have made a general recommendation of this nature to the President, and he feels it worthy of intensive study," the Postmaster General said. "And in case there is any doubt, I want to state that while I am advocating the abolition of my own job, I would not under any circumstances take an executive position in the Government Corporation I am proposing."

o-It-Yourself Savings . . .

The Sevierville, Tennessee, Tri-County News, called attention of its readers to a publication of the Colorado Farm Bureau which recently reprinted an article on the Denver Post by columnist Monk Tyson suggesting ways for housewives to trim their grocery bill by buying direct from the farmer. Mr. Tyson decided to pursue his own producer-consumer campaign: " . . . found a farmer who sold me 100 pounds of potatoes for 2¢. That's less than half of the store price. Of course, Mamma's going to have to peel that sack of spuds I brought home. She'll have to boil them and mash them—when we want them mashed. She won't be able to lump a container of powdered spuds into the utensil, ring it to a boil, then serve."

Next he bought a couple of chickens: "Place chickens, an ax, and carving knife in Mamma's well-manicured hands. Mamma will behead the chickens, pluck them, and carve them. She'll be delighted when she learns you save five, maybe ten cents a pound by buying the poultry on the farm."

The same money-saving strategy, he reports, can be applied to other items—corn, for example. You can buy an antique grinder so that "Mamma" can shuck the corn, shell it and grind it into meal. If the grinder is adjustable, you can grind some wheat into flour.

"If we are serious about beating the costs of inflation, this is one way to do it. We could also take up weaving and the other arts and crafts that made the early American families virtually self-sufficient. Chances are, it would not be long before we looked on today's miracle of mass production and mass distribution with new respect and appreciation."

Sauce For Goose, Not Gander

The National Association of Manufacturers says, "A prominent accounting firm has advised its clients that Internal Revenue Service is concerned by the level of expense account spending again, and suggests that substantiation requirements be met scrupulously."

Citizen taxpayers would be interested in knowing whether the expense accounts of their public servants, paid with tax dollars, are scrutinized as carefully from the standpoint of their relation to public business, as are those of their taxpayer employers. From what one reads, they are not. Apparently, they come under the special privilege umbrella, "the king can do no wrong."

April 13, 1944

Conk's Column—Uh-huh, we have the honor of announcing the advent of the Spring of 1944. It's genuinely official. The basis for this announcement is: 1-Mr. and Mrs. Trudeau have moved their ducks out to Lake Margrethe; 2-the robin family is arriving in goodly numbers, and working overtime to find the early worm; the sucker family is due to run, according to word from our Conservation Officer; and 3-we ran into swarms of gnats in the woods near School Section Lake last Sunday. And there's still another absolutely SURE sign of spring: The Borchers & Hoesli Canoe Livery is a scene of activity as their fleet of twenty canoes is being overhauled and painted a brilliant green.

Mrs. Wilfrid Ziegler gave a very interesting and informative talk on color coordinating in the home at the April 3rd meeting. Highlights revealed that certain colors produce warmth, softness, coolness, etc. She gave many pointers—how shapes and sizes of various things used in a room and a good color scheme throughout the home also affect how you feel. Mrs. Ziegler also displayed some of her fine handpainted china and paintings to show the ladies. Numerous guests and honorary members attended to hear Mrs. Ziegler speak. A short business meeting followed the program, with committees set up for the Trade Show.

Please make your reservations for the May 15th dinner with Mrs. C. R. Holcomb by May 2nd. Phone 348-3612.

Lunch hostesses were Mrs. Rex Hawkins and Mrs. Ernest Larson. The table centerpiece was of brown wooden fruit, leaves and candleholders with orange tapers.

"A Changed Life"

About 9:00 p. m. September 10, 1964, my entire outlook on life was changed. My very desire for the things I used to do was changed. I had found the peace and joy within thing. The heavy load of guilt and sin was taken from me.

As I was watching the Billy myself and the most comfortable feeling that all was well with every Graham Crusade on TV that night, he concluded his sermon with these words: "As it was in the days of Noah, so shall it be in the end." I saw clearly then that I was lost and headed towards eternal destruction yes, more clearly Hell.

Yes, I made a decision that night, an important one too. A decision that we all must make.

Friends, we cannot change our lives by our power or by our success in material things, but our life can only be changed by God. So many times we try to reform but forget to be transformed, as the word of God mentions in Romans chapter 12, verses 1, 2 & 3.

I would like to take this opportunity to invite you to come and worship with us this Sunday. You too can find that peace and joy you've been looking for.

Our pastor, Reverend Robert E. Buck lives in Roscommon. His phone number is 275-5017. Come and listen to his message this Sunday. It will be a blessing to you. See you in Sunday School at 10:00 a. m.

Weekly Schedule: Sunday: Sunday School 10 a. m., Morning Worship 11 a. m. and evening worship at 7:30 p. m. Wednesday, prayer service at 6:30 p. m.

Did You Know

THAT THERE IS A BOOK OF MODERN DAY SCRIPTURE

It is called the Doctrine and Covenants, and rightly so, for it is a record of the Doctrines of Christ's church and his Covenants with his people. It reveals "that God does inspire men and call them to his holy work in this age and generation, as well as in generations of old, thereby showing that he is the same God" yesterday, today, and for ever. Living Scriptures, growing. Scriptures, continuing Scriptures—these are found in the Doctrine and Covenants. They reveal God as he was, as he is, and as he shall always be—the same unchangeable being throughout all eternity. They reveal his plan for his kingdom here in the earth. They give instruction in doctrine, for reproof, for correction, for instruction in righteousness. They testify that Jesus is the Christ, the Son of the living God! They are proof that God is not a respecter of persons, but that he continues today to direct mankind through his chosen prophets in the building of her kingdom and the ultimate salvation, immortality, and eternal life of mankind. We invite investigation of the message of the Book of Doctrine and Covenants. "Search the scriptures; . . . they are they which testify of me" (John 5:39). Worship God this week. Regard, members of the Reorganized Church of Jesus Christ of Latter Day Saints.

Frederic Soldier Given Army Promotion

Washington D. C. (AP) — Michael L. Alma, son of Mr. and Mrs. Maurice E. Alma, 6449 Cheboygan St., Frederic, Mich., was promoted to Staff Sergeant March 23 in Washington D. C., where he is serving with the Army Map Service.

Sgt. Alma, signal supply specialist, entered the Army in April, 1962, and completed basic training at Ft. Knox, Ky., in June, 1962. He was first assigned to the 1st Infantry Division in Vietnam.

Sgt. Alma attended Frederic Community High School for three years and completed his high school education through the General Educational Development Test in 1963.

FORMER RESIDENT INSTRUCTS CLASS IN BUILDING

Twenty-four high school students in Flint are involved in a home-building experiment. Nineteen school districts in the area are participating. The students are building a \$30,000 home. The class works in two shifts some in the morning and some in the afternoon. There are two hours of daily work experience and one hour of academic work relating to the subject. The students attend their other classes during half of the day.

The project is under the direction of Holte Luter former Grayling resident.

Supporting this program are the Homebuilders Association of Flint, which handled the financial arrangements, and merchants and service clubs. Each school represented contributed \$200 per boy to help defray the expenses in this non-profit venture. If there is any profit from the sale of the house, it is returned to the schools. One electrical firm volunteered to diagram the electrical wiring for the house and its electricians are to teach the boys their methods. The same idea is being followed out by other building trades contractors so that the youngsters are taught all the essential phases of the entire operation.

The project is designed to give the students an exploratory experience which may lead some of them into the field of building.

Other planned instruction includes horticulture classes which design and install landscaping and other classes to handle the decorating. A junior architectural drawing class student designed the house.

Handy Hints

from
HEIDI MATTHIAS

BE HEALTHY, WEALTHY AND WISE

To be wealthy and wise you must first be healthy. And a good way to insure good health is to eat three well balanced meals a day.

You may not have to be healthy to be wealthy, but it certainly helps if you wish to get through the day. This is the responsibility of every mother, in order to help her get her work done and even more importantly, to make her children healthy.

Give a child a good breakfast before he goes to school will help him learn more. Studies show that when a child comes to school having had little or no breakfast, he might just as well have stayed home.

Today we have more and more teen-age mothers. What does your teen-ager eat for lunch? All too many of them have pie or french fries and pop. On this kind of diet, how can our young mothers expect to have healthy children? If they do happen to have healthy children, will they know what to feed them in order to keep them strong and healthy?

To make sure your family has well balanced meals include these four easy categories in their meals each day.

- two servings of meat, fish, cheese, eggs, nuts, peanutbutter or dried beans or peas.
- four serving of fruits and vegetables, consisting of one serving of citrus fruit, one of a dark green or deep yellow fruit or vegetable and two servings of other fruits and vegetables including potatoes.
- two cups of milk or equivalent in cheese and ice cream. Children and teens need more.
- four servings of bread, cereal or grain products.

For more information on how to provide your family with well balanced meals write or call me at the Cooperative Office in the Roscommon County Buildings.

Road Commissioners Minutes

March 24, 1967
A regular meeting of the Board of Crawford County Road Commissioners held in their office in Grayling. Meeting called to order by Chairman Mead. Members present: Commissioners Howard H. Mead, Harold T. Johnson and R. E. Shook, Engineer-Manager John M. Keir, and Superintendent Norman H. Feldhauser. Absent, none.

The minutes of the last regular meeting were read. A motion was made by Comm. Shook, supported by Comm. Johnson that the minutes be approved as read. All voted in favor, motion carried.

A letter from the State Police confirming speed zone signs in the Frederic area was approved by the Board.

The bids for Tractor-Loaders were reviewed and a decision was made to accept the bid of the Wolverine Tractor & Equipment Company for a Hough, Model H 50C Payloader. Mr. Ernie Keppler, Wolverine Tractor & Equipment Company, appeared before the Board.
